## EDUCATION

Acropolis Institute of Technology and Research

November 2021 – June 2025

B.Tech - Computer Science and Engineering - **CGPA - 8.59**

Indore, India

Relevant Coursework: Data Structures & Algorithms, Object Oriented Programming, Operating Systems, Database Management System, Computer Networks

Delhi World Public School (50852)

August 2021

Class 12th - Central Board of Secondary Education (CBSE) - **95.4%**

Dewas, India

## TECHNICAL SKILLS

**Programming Languages:** C/C++

**Frontend:** JavaScript, React.js

**Backend:** MongoDB, MySQL, Express.js, Node.js, RestAPIs

**Version Control:** Git & GitHub

## PROJECTS

Arogya | MongoDB, ExpressJS, ReactJs, NodeJs

September 2024 - November 2024

- Built comprehensive healthcare *platform integrating ayurvedic and allopathic treatments* for 40+ diseases, offering personalized care options and enhancing the patient experience.
- Designed an *appointment booking* system with time slot selection and integrated the *PhonePe payment gateway via microservices*, processing 1,200+ transactions daily with a 98% success rate, streamlining the booking and payment process.
- Implemented a *personalized AI-driven chatbot* for disease queries and Ayurvedic guidance, along with secure 1:1 online doctor-patient consultations, improving user engagement and reducing in-person visits by 50%.

CitiesSearch - Microservice | Node.js, Express, MySQL and Sequelize ORM

February 2024 - April 2024

- Developed a *RESTful microservice* in a MySQL database to manage CRUD operations for 15+ cities and their corresponding airports.
- Designed and implemented *modular architecture* with separate layers for controllers, services, repositories, and utilities, improving code reusability and maintainability.
- Integrated comprehensive error handling, asynchronous handlers, and standardized API responses to ensure robust and efficient request handling across all endpoints over 6+ controllers.

BookBazaar | MongoDB, ExpressJS, ReactJs, NodeJs

October 2023 - December 2023

- Integrated PhonePe payment gateway, *JWT*, *Firebase*, and *Google OAuth* to secure transactions and user access, managing 250+ concurrent requests.
- Optimized book transactions, *cloudinary image uploads*, and promotions (e.g., free shipping on orders 500+ Rs), achieving higher user satisfaction with over 100 API tests on Postman.
- Deployed a robust CRUD-enabled application with advanced search on Render, effectively leveraging free pipeline minutes and 100 GB free bandwidth.

## CERTIFICATIONS

- Earned Computer Networks and Internet Protocol Certification – NPTEL, IIT Madras
- Earned JavaScript Course Completion Certificate – Infosys, Springboard
- Certified in Linux and RDBMS Training – Spoken Tutorials, IIT Bombay
- Achieved CPA – C++ Certified Associate Programmer Certification – Cisco Networking Academy®

## ACHIEVEMENTS & EXTRACURRICULARS

- Ranked in the top 5% in the Computer Networks NPTEL exam, earning an elite certification and a cash reward for scoring 83%.
- Crafted an AI-powered platform at the 48-Hour "Kriyeta 2.0 2024" Hackathon, showcasing teamwork and innovation.
- Completed the J.P. Morgan Software Engineering Virtual Experience in January 2024, gaining practical insights in software engineering.
