PROFESSIONAL QUALIFICATION

Acropolis Institute of Technology and Research
B.Tech - Computer Science and Engineering - CGPA - 8.72

Indore, India
November 2021 – June 2025

EXPERIENCE

DigiValet *January 2025 - Present*
Software Developer Engineer - Intern *Indore, India*

- Contributing to DigiValet's project by **developing and integrating 5-6+ modules** using **MVVM** and **MVC architectures**, ensuring smooth functionality and seamless system integration
- Developing iOS apps using **Swift** and its frameworks **SwiftUI** and **UIKit**, primarily focusing on enhancing user experience across both **iPhone** and **iPad** platforms
- Utilizing **Swift Package Manager** (SPM) for efficient dependency management, version control, and streamlined project workflows

PROJECTS

- **CasaDigi: A luxury hospitality experience, at home** *March 2025 - Present*
Tools: Swift, SwiftUI & UIKit
 - Engineered an automation system for luxury residences, enabling centralized control of multi-bungalow properties and management of smart appliances across **20+ connected devices** through a single intuitive interface
 - Built a **USB Music Media Player** feature for multi-floor residences, empowering owners to manage room-specific music playback.
 - Developed a **Custom Experience** feature empowering users to personalize room automation - including control over lights, fans, temperature, fragrance, curtains, and more - using a dynamic and responsive UI
- **Arogya: A Complete Healthcare Solution** *September 2024 - November 2024*
Tools: MongoDB, ExpressJS, ReactJs, NodeJs **Click Me**
 - Built comprehensive healthcare **platform integrating ayurvedic and allopathic treatments** for 40+ diseases, offering personalized care options and enhancing the patient experience
 - Designed an **appointment booking** system with time slot selection and integrated the **PhonePe payment gateway via microservices**, processing 1,200+ transactions daily with a 98% success rate, streamlining the booking and payment process
 - Implemented a **personalized AI-driven chatbot** for disease queries and Ayurvedic guidance, along with secure 1:1 online doctor-patient consultations

SKILLS

- **Programming Languages**: Java, C/C++, JavaScript, Swift
- **Frontend**: ReactJS, UIKit, SwiftUI
- **Backend**: NodeJS, ExpressJS, RESTful APIs
- **DataBase**: MongoDB, MySQL
- **Developer Tools**: Git & GitHub, Bitbucket, Jira, Postman, Visual Studio code, XCode
- **Familiar With**: AWS, System Design

CERTIFICATIONS

- **NPTEL, IIT Madras**, Computer Networks and Internet Protocol Certification *April 2024*
- **J.P. Morgan**, Software Engineering Virtual Experience *January 2024*
- **Infosys, Springboard**, Earned JavaScript Course Completion Certificate *August 2023*
- **Cisco Networking**, Achieved CPA - C++ Certified Associate Programmer Certification *December 2022*

ACHIEVEMENTS

- Scored 83% in NPTEL Computer Networks - Top 5%, earned elite certificate & reward
- Crafted an AI-powered platform at the 48-Hour "Kriyeta 2.0 2024" Hackathon, showcasing teamwork
